Primary School

Homework

Due to COVID-19, we are moving to becoming a paperless school. Therefore, there will be no homework sent out on paper. We are in the process of creating a new online learning platform which will provide online materials for children to access at home. This should be in place for the end of September.

Wellbeing

The coronavirus (COVID-19) pandemic has brought many new and unexpected challenges to children's mental health and wellbeing. In the current climate, it is more important than ever that we support children's mental health. We will be ensuring that there are opportunities for children to share their feelings and concerns built into everyday practice. In order to address any learning that has been missed, we will use focussed interventions to target children's gaps taught from previous year groups.

Don't forget...

PE will be every Wednesday; please ensure your child wears their PE kit to school on this day and earrings are removed.

Year 1 Curriculum Leaflet

Autumn 1

In this leaflet you will find out about what your child will be learning during this half term and how you can help them at home.

It gives you information about what is going to be taught in all areas of the curriculum in school and suggests some ways in which you can get involved and help out at home.

We see this as a great opportunity for you to share in your child's education.

On the back page you will find further information regarding homework and what to expect each week.

Thank you for your support!

Year 1 Staff

Miss Webb

Mrs Jones

The Incredible World of Toys

Do you remember your favourite toy? Everyone loves playing with toys. Let us explore the history of toys and play with modern day toys whilst learning the differences and similarities. We will learn about the history of famous toys from around the world and make our own.

Our Topic

This half term our topic is all about toys. Children will be developing skills in all areas of the curriculum through this topic. They will look at toys in their past and present as well as those from long ago; we will cover how toys work and what they are made of as well as designing and making a toy of their own. We will also identify the continents and seas of the world and toys from different countries.

We'd love for you to get involved and help your child get a better understanding of the topic. There are many ways you can help your child such as:

- Research the history of toys on the internet
- Investigate different toys from around the world
- Write a list of toys and say which material they are made from
- Observational drawing of your favourite toy

RE/PSHE

In RE children will be hearing a range of stories from the bible and discussing the meaning of them.

Our PSHE topic is Relationships. During lessons, children will be discussing rules and good and bad choices.

Maths

In maths lessons, children will be adding and subtracting to 20; naming and describing properties of 2D shapes (square, rectangle, circle, triangle, hexagon and pentagon); drawing and measuring lines in cm using a ruler and using concrete objects to multiply. “

Children will also be practising finding one more and one less than numbers to 100, counting in 2s, 5s and 10s and recalling number bonds to 20. These are things you could help your child with at home.

Science

Our topic for science this half term is Plants focusing on Trees.

We will be identifying the parts of plants and carrying out an investigation to find out what the oldest tree is on the school grounds.

English

During English lessons children will be reading the following books; 'The Magical Toy Box' and 'Toy Story'. They will be discussing what happens in the books and describing the characters and their feelings. You could help children at home by taking them to the library to find stories about toys to read. Perhaps children have some books about toys at home they would like to share with children in school.

Children will be writing a poem about toys using adjectives and nouns and writing simple sentences to describe toys with capital letters and full stops.

Children will also be practising forming letters correctly and spelling words from the year 1 word list correctly. You could help at home by practising handwriting with children and choosing some of the spellings from the year 1 word list to practise with your child.

Reading

Your child will be heard reading an appropriately pitched book in class regularly. This will be kept in their tray and they will have access to it throughout the day.

Each week, we will be sending home a copy of the book they are reading in their Read Write Inc session for you to read with your child. Every day, we will also be sending home a link to the video of the sound / words children have been learning in their reading lesson via Marvellous Me. Please could you watch this with your child so they can become more confident with their reading.

At this time, we will not be sending reading records.
