Phonics

Every day your child will be having a phonics session where we introduce Set 1 or 2 sounds. When your child has learnt to recognise the first few sounds we begin reading simple words using these. Each week we will send home some letters or words for your child to practise reading and writing. As they progress through the sounds they will then have simple sentences or phonics books to practise reading with you.

Reading

Whilst your child is learning to read it is still important that they look at books and listen to different stories. Each week on a Monday the children will be able to go to our library and choose a book to bring home to share with you. Please make sure they bring their library books back every Monday to choose a new book. They also now have a reading record and a reading book for you to read with them at home. Please make sure you are commenting in their records for us to see.

Don't forget...

Physical development is an important part of the Early Years Curriculum and supports children at this age with other developing others skills, particularly writing. Every Monday the children will have a P.E lesson, PE kits stay in school and are sent home for washing at the end of each term.

Reception Curriculum Leaflet

Spring 2 Term

In this leaflet you will find out about what your child will be learning during this term and how you can help them at home.

It gives you information about what is going to be taught in all areas of the curriculum in school and suggests some ways in which you can get involved and help out at home.

We see this as a great opportunity for you to share in your child's education.

On the back page you will find further information regarding homework and what to expect each week.

Thank you for your support!
Reception Staff

Mrs Skilton-Yates

Miss Sidhu

Welcome to Reception!

This half term in Reception we will continue to support the children in adjusting to the daily routine and making relationships with adults and other children. Every day we have a Maths lesson followed by a phonics session. During the rest of the day we explore the different areas of our curriculum linked to a book which we will read together.

We have listed the topics and themes we will explore each week below and suggested some ways you can support your child at home. We value your support at home and would love to see some photographs or pictures you and your child have made send them to - EYFSpaents@fieldviewprimary.org.uk

24th February

Mr Wolf's Pancakes

This week we will be reading Mr Wolf's Pancakes. We will even have a go at making pancakes and writing a set of instructions for Mr Wolf.

Maybe at home you could make pancakes together and explore healthy toppings.

2nd March

Child Led Week

This week will be focussing on the children's interest in Construction.

9th March – 23rd March

Healthy Eating

Oliver's Fruit Salad/Oliver's Vegetables

In school we will be focussing on how to keep our healthy and will be following Oliver and reading about how to make healthy food fun. We will make some healthy fruit kebabs and practice our fine motor skills to chop vegetables and fruit.

At home you could plant seeds and watch them turn into food! Some easy ones are lettuce, tomatoes and cucumber.

30th March

Easter

This week is the final week of term and we will be celebrating Easter! We will be making lots of crafts and talking about why Christians celebrate Easter and who was Jesus?

At home you could watch the Easter story together on Cbeebies and talk about different celebrations you may celebrate at home.

SMART Maths.

In Maths lessons we will be following the SMART Maths scheme. We will continue to practise our previously taught skills such as counting amounts and finding the correct number to match and then moving on to find one more or one less than a group of objects. We will also be introducing simple addition and subtraction this term as well as looking at 2D and 3D shape in more detail..

At home you could support your child in Maths by practising counting up to 10 and then 20. You could count the stairs, pasta, socks or even toys! When you are out or in the garden you could challenge your child to find you a set number of objects, for example three sticks or six leaves.

Encourage your child to look for numbers when you are out and talk about what they are used for.

Play games where you describe where to hide or where you have hidden something and ask your child to find it.

SMART Maths

KEY DATES

24th February – RAS Stay and Play
27th February – RASY Stay and Play
5th March – World Book Day
3rd April – Last Day of Term
20th April – Start of Summer Term.

Have a fantastic Easter and we look forward to hearing all about what you got up to.
