

Home Learning Activities – Year Reception – W/C 15.06.2020

Below are a list of activities that children can complete over the course of the week. These are a mixture of videos to watch, games or activities to access online, as well as plenty of activities that require very few resources. The activities are designed for an adult to complete with your child as they require some guidance.

RWI have phonics lessons online everyday for children on Set 2 sounds. These change daily and only require pencil and paper. There are also some alternative lessons planned here.
